Meet Olivia

HOPES TO BE A PRESCHOOL TEACHER

- At 18, Olivia had to leave the orphanage, with no family to go to and therefore no legal ID, she would have ended up on the street. Instead, she was able to come to Healing House in April 2025 and start her healing journey.
- She is highly motivated and wants to invest in the community that she now has around her.
- She started school this fall and is studying hard to pass her 9th grade exams at the end of the year. She is also interning at a day care center.

Why Sponsor A Girl?

Join Us

At Healing House, BFA Transition Home, we provide a safe and loving environment for up to **eight young women** at a time, offering them hope, healing, and a future. They stay with us anywhere from six months to three years, depending on their needs.

Without our home, these at-risk girls in North Africa would be left to **face life on the streets alone**. We are the first and only transition home for girls like them, providing not just shelter but a lifeline.

Each girl receives:

- ✓ A safe place to live
- ✓ Clothing, food, and medical care
- ✓ Trauma-based counseling
- ✓ Education and language tutoring
- ✓ Job training and mentorship
- ✓ Support transitioning into independent life

Most importantly, our home gives them something they've never had before—a **chance to dream, heal, and build a future.**
